For
Southridge Presbyterian Church

Report to Heartland Presbytery
April 14, 2018

Members of the Southridge congregation held several discernment sessions that included listing their strengths, weaknesses, and desires. They also participated in a survey, provided by Heartland Presbytery. This survey quantified the members' feelings on several issues. All of this culminated on February 24, when the congregation decided to accept the "hard and holy work" of revitalization.

The AC is working with the Session to provide resources to assist and enable the members to progress through the yet to be defined process.

Please keep Southridge and the Administrative Commission in your prayers as we labor in this "hard and holy work" of revitalization.
