

The Personnel/Search Committee has worked hard over the last year to discern the best possible way to fill the position vacated when Charles Spencer resigned. While working towards that goal, the presbytery has initiated new ways of working together. Our Council has become smaller and delved into the work of each of our Committees/Commissions/Divisions. We have also initiated questions and listening sessions at our Presbytery meetings. In listening to the voices around us, Council/presbyters/candidates we have reached the conclusion that we are not quite ready for a Transitional EP to guide us in mission and vision. The number one issue we hear is the need for better communication. Considering that, we feel Heartland would be better served by an Interim EP. We need a someone to help us continue our conversations, improve our communication and lend support to all. A Council approved position description along with an updated MIF for Interim Executive Presbyter is now available. Questions, PIFs and resumes can be sent to Personnel Committee Moderator, Jean Murphy at revjmq@hotmail.com. This position is open to both Teaching and Ruling Elders. We ask for your continued prayers as we listen for God's guidance.
